Remote-based across Saudi Arabia & Bangladesh | Available GMT+3 to GMT+6

PROFESSIONAL SUMMARY

Strategic Product Design Leader with 6+ years scaling UI/UX for SaaS and data-driven platforms across fintech, agri-tech, edu-tech, e-commerce, and ERP. As agency founder and Head of Design at Dclan, I lead end-to-end design delivery — from research and systems to pixel-perfect, developer-ready handoff — while also shipping functional front-end work myself using AI-assisted tools like Claude Code. I bridge complex user needs with business outcomes, prioritizing clarity and function over decoration.

WORK EXPERIENCE

Head of Design — Dclan *Nov 2023 – Present*

- Founded and lead the design agency, owning end-to-end UX/UI delivery across 8+ client engagements to date
- Designed a full-featured banking application for a fintech client — end-to-end flows, component library, and dev handoff
- Directed design across six verticals: Agri-tech, Fintech, Edu-tech, E-commerce, SaaS ERP, and HR & Office Management
- Built and maintain the agency's live website (dclan.agency) using Claude Code for AI-assisted front-end implementation
- Supervise and mentor a team of 2 Junior UX Designers and Graphic/Multimedia team members
- Partner with development teams to ensure pixel-perfect, implementation-ready design output, reducing design-to-dev h
- Own the agency's website and digital promotional materials end-to-end

UX/UI Designer — Olivine Limited *Dec 2022 – Oct 2023*

- Designed a comprehensive dashboard for the Bangladesh Land Ministry, streamlining land record workflows for [X]+ daily users
- Delivered application and website design for a2i and the Bangladesh ICT Ministry
- Partnered with engineering teams for smooth design-to-development handoff

UX/UI Designer — SCAPE Design Engineers *May 2020 – Nov 2022*

- Designed a large-scale Architecture & Civil ERP system, covering complex workflows and data-heavy interfaces
- Collaborated with development teams to ensure high-fidelity implementation
